

Picking a Sectional

TIPS

What is a sectional sofa? And why do people love them?

All the rage for many reasons, **sectional sofas** are large modular sofa pieces that connect together for maximum seating and ultimate comfort. These pieces are great staples for people who have large families, entertain often, or love to lounge. The best part about a sectional is, they will never go out of style when upholstered in neutral, stain resistant fabric.

Where should you place sectionals?

Pro Tip: always measure your room before buying furniture to make sure you are considering scale and proportion.

3 questions to ask yourself when placing furniture:

1. Is it obstructing a walkway?
2. Can I comfortably watch tv or hold conversations with this placement?
3. Does this piece add function to my space or clutter?
